## EDUCATION

### SIMATS Engineering

June 2023 – June 2027

Bachelor of Engineering in Computer Science (Artificial Intelligence) - **CGPA: 9.09** Chennai, Tamil Nadu

## EXPERIENCE

### Mulearn Foundation

August 2025 – March 2026

Backend Technical Lead - Internship

Trivandrum, Kerala (Remote)

- Designed and deployed scalable Discord bots serving a community of 55,000+ students
- Built RESTful APIs with Django and Django REST Framework to integrate multiple dashboards for the organization, students, mentors, and other stakeholders
- Boosted community interaction by implementing gamified experiences for student developers

### Octonauts Infotech

May 2024 – January 2026

AI/ML Engineer - Internship

Chennai, India (On-site)

- Engineered backend infrastructure for analytics & management handling bulk transactions
- Integrated and finetuned AI-powered chatbot assistant using open source LLMs
- Collaborated with senior engineers (20+ years experience) following industry best practices, scalability, clean coding and code review standards

### Acmegrade

December 2023 – February 2024

ML Engineer - Internship

Chennai, India (Remote)

- Trained and evaluated 15+ ML models (Random Forest, XGBoost, Regression, Cascade Classifiers)
- Built data preprocessing pipelines using Pandas and NumPy
- Created data visualization dashboards using Matplotlib and Seaborn for stakeholder presentations

## PROJECTS

### Sikkim Tourism - 6-Member Team | React Native, FastAPI, MongoDB

December 2025

- Architected production-grade platform with FastAPI async backend and React Native mobile app
- Implemented AES-256-GCM encryption with custom key derivation encrypting sensitive information in Database and JWT-based RBAC across 4 user portals
- Built AI travel planner using an LLM for itineraries and Prophet ML model for predictive analytics
- Developed WebGL 360° virtual tours, 6 languages TTS and real-time GPS location sharing

### CID-PHISH: Cybersecurity Education | Next.js, Firestore, Firebase Auth

December 2024

- Developed full-stack educational platform with 2,500+ active users for phishing awareness training
- Created interactive simulation environment demonstrating social engineering attack vectors

### PromptSmith MCP | Next.js, MongoDB, MCPs

February 2026

- Built an MCP server for planning Datamodels, Userflows, Techstack, ENV variables, File Structure, API documentation etc before direct prompt
- At its version 0.1, it allows users to create Monolithic Architecture projects generation
- Currently working on layer based controls which allows Microservice and Modular Monolithic Architecture

### FlirtDify: Chat Analytics | Next.js, MongoDB, Node.js, NLP

November 2025

- Engineered chat analytics for WhatsApp with sentiment analysis, emotion detection, and engagement metrics
- Built visualizations including engagement calendars, sentiment graphs, and relationship health scores

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, TypeScript, Java, C++, C#, SQL, HTML/CSS, Dart

**Frontend:** React.js, Next.js, React Native, WebGL, Flutter

**Backend:** Express.js, Nest.js, FastAPI, Django, Flask, GraphQL

**Databases:** MongoDB, PostgreSQL, Firebase Firestore, MySQL, Redis

**ML/AI:** TensorFlow, PyTorch, SKlearn, Prophet, Google Gemini API, Hugging Face, OpenCV, Pandas, NumPy

**DevOps & Cloud:** Docker, Git, GitHub Actions, Linux, AWS, NGINX

## OTHERS

### Smart India Hackathon 2025 - Winner

December 2025

Sikkim Tourism Platform

Ministry of Tourism, Government of India

- Led 6-member team to victory in 36-hour national-level hackathon among many participating teams across the nation

### Google Developer Groups (GDG) - Core Team Member

November 2024 – September 2025

Machine Learning Team Lead

Saveetha University

- ML projects, workshops, and organized technical events with hands-on coding sessions
